Parent registers pregnancy with midwifery as per universal pre-natal support. In first midwifery appointment care leaver status made known, midwifery contact the Leaving Care Team (LCT) Duty Line and where possible speak with previous Personal Advisor for young person

LCT confirm care leaver status and, if consent from parent, share relevant information about known history to help support decision making as to whether referral to FDFF to decide on pathway for assessment is required. If safeguarding concerns known, information shared without consent.

If concerns are significant enough or if support is needed beyond the existing professional network, then midwifery makes referral to FDFF to decide on the pathway for assessment, with an indication this is required.

LCT contact parent to offer extended service given change of circumstances.

If parent does not wish for a service from LCT, parent continues to be supported by midwifery and Universal Services

If young person would like a service from LCT. Management decision to reallocate to Personal Advisor and record decision on system.

As per PAN Sussex procedures, Personal Advisor completes updated Pathway Plan to help formulate a support plan and gain consent to share with relevant agencies.
